REPORT OF EDUCATIONAL DIRECTOR
Miriam Daughtry, R.N.

The Educational Director visited forty-four professional schools of nursing and three affiliating schools from November 7, 1947, to May 14, 1948.

The Joint Committee on Standardization held its annual meeting May 25, 1948, at which time all schools of nursing were reviewed and accredited for the next school year. Thirty-nine schools were fully accredited. Tayloe, Washington, N. C., and L. Richardson Memorial, Greensboro, were provisionally approved. Leaksville School of Nursing closed on June 30, 1948. North Carolina State Hospital School of Nursing closed October 1, 1948. Goldsboro School of Nursing has sent their senior students to Watts Hospital to finish their remaining period and will close their School of Nursing, as of February 1, 1949. Mary Elizabeth School of Nursing will close its school when the present students in the school finish. This is due to their inability to meet the requirement of a daily patient average of fifty.

A number of the schools are making plans for psychiatric affiliations. At the present time, there are three schools affiliating at the North Carolina State Hospital, Raleigh. Also there are two colored schools sending students to New York for this affiliation. More schools are urged to arrange for a psychiatric affiliation for their students so that this can be included in the basic course. Several out-of-state schools have already signed a contract with the North Carolina State Hospital; and as they can only take a limited number of students, this may exclude some of the North Carolina schools.

The thirty-nine fully accredited schools of nursing in North Carolina have enrolled approximately one thousand pre-clinical students for the fall classes. This is an increase of about three hundred over the enrollment for the September classes of 1947.

The Educational Director, at the request of the Joint Committee on Standardization, held conferences in the Eastern and Western Divisions of the State in November, 1947. These were for the purpose of discussing the changes in the 1948 Regulations for Schools of Nursing with the members of the faculty of the schools. One of the most important requirements that she stressed was the National League of Nursing Education record forms which were to be used for all students admitted after January 1, 1948.

Duke University sponsored two Institutes this summer for directors of nursing and nursing education. One was on Organization and Administration of Schools of Nursing--the other was on Mental Hygiene. Both of these Institutes offered a great opportunity for advanced learning in the above fields. The small attendance from the North Carolina schools of nursing was most discouraging to the nursing educators who made this program possible. In order to improve our present system of nursing education, it is essential that members of the faculty of schools of nursing in North Carolina take advantage of the opportunities that North Carolina and other states offer for advanced preparation.

REPORT OF NORTH CAROLINA BOARD OF NURSE EXAMINERS
Ethel F. Burton, R.N., President

Totals for the year (September 1, 1947 to September 1, 1948)

Reported for examinations----------796
Passed examinations----------721
Registered in recognition of their registration
in other states----------151

There were approximately five hundred who wrote the examinations on October 6 and 7, 1948.

During the year (September 21, 1947 to September 27, 1948, from the audited reports) the income of the Board was $24,805.87. The disbursements were $18,633.55. We have on hand accumulated savings of $4,187.18.

Approximately six thousand nurses have re-registered during the year of 1948. A file of the nursing resources in each of the one hundred counties of North Carolina will be completed by December 31, 1948.

The Board of Nurse Examiners has cooperated with the North Carolina Medical Care Commission in making preliminary plans for a survey of nursing service and nursing education, which it has authorized the University of North Carolina to conduct.

A Commission to study and investigate examining boards of the state was created at the 1947 session of Legislature. The Commission was given a verified statement containing information on laws, rules, regulations, number of licenses issued during the past three years, annual income, annual disbursements, etc.

The Secretary-Treasurer and Educational Director attended two public hearings of this Commission in the fall of 1947. She was given the opportunity to inform the Commission of the advantages of continuing with the present system of the Board and to suggest changes in the present law that would be beneficial. On behalf of the nurse members of the Board, she suggested that the power given to the Standardization Committee in the Nurse Practice Act, which is to advise with the Board of Nurse Examiners in creating regulations governing the education of nurses, should be given to the Board of Nurse Examiners. The Standardization Committee should function merely as an advisory Board. This suggestion was made on the basis of the fact that North Carolina is the only state in which the schools of nursing are accredited by a body other than the Board of Nurse Examiners.

REPORT OF JOINT COMMITTEE ON STANDARDIZATION
Amy Louise Fisher, R.N., Chairman

The Joint Committee on Standardization is charged by law with the duty of formulating regulations for schools of nursing in North Carolina. It is not the desire of the committee to make it difficult for schools of nursing to meet the requirements. On the other hand, it is not fair to the student that she complete her nursing course and find that she is not eligible for registration, reciprocity or Federal nursing services.

The personnel of the Committee is as follows:

Amy Louise Fisher, R.N., Chairman, from the N. C. State Nurses' Association.
Helen Nahm, R.N., Secretary, from the N. C. State Nurses' Association.
Miriam Daughtry, R.N., Educational Director, from the N. C. Board of Nurse Examiners.
Ethel F. Burton, R.N., from the N. C. Board of Nurse Examiners.
Mrs. Esther L. Creasman, R.N., from the N. C. Board of Nurse Examiners.
C. Margaret Johnson, R.N., from the N. C. State Nurses' Association.
Moir S. Martin, M.D., from the N. C. Board of Nurse Examiners.
Louten R. Hedgpeth, M.D., from the N. C. Board of Nurse Examiners.
George L. Carrington, M.D., from the N. C. Hospital Association.
A. L. Daughtridge, M.D., from the N. C. Hospital Association.
H. L. Brockman, M.D., from the N. C. Hospital Association.
Sample B. Forbus, from the N. C. Hospital Association.

There were two quarterly meetings held during the year: One on December 13, 1947, and the other on March 4, 1948. The regular annual meeting was held on May 25, 1948, the purpose of which was to accredit the schools of nursing of North Carolina. Quarterly meetings of the Joint Committee are held so that representatives of the schools of nursing may bring their individual problems before the group.

The "Regulations for Schools of Nursing in North Carolina--1948" which was adopted by the Joint Committee on Standardization is now in effect. The professional schools of nursing were accredited according to these regulations, and all students who were admitted to schools in 1948 must follow the minimum requirements as set down in this book.

At the request of the Joint Committee on Standardization, the Educational Director held conferences in the Eastern and Western Divisions of the state for the purpose of discussing with the members of the faculty of the schools of nursing the changes in the 1948 Regulations for Schools of Nursing.

There were thirty-nine professional schools of nursing accredited by the Committee; two provisionally accredited; and two closed. There are two schools that are in the process of closing and will be closed when their present students have completed their training. There were four schools in North Carolina accredited for affiliations--one for psychiatry and three for pediatrics.

NURSING IN THE MEDICAL CARE COMMISSION

Flora Wakefield, R.N., Member, N. C. Medical Care Commission
Representing the N.C.S.N.A.

In a recent report of North Carolina's Hospital Construction Program released by Dr. John A. Ferrell, Executive Secretary of the North Carolia Medical Care Commission, the following accomplishments for the past year were listed.

"1. One hundred and eighty hospitals with 20,403 beds have been surveyed and the results tabulated:

Number of Hospitals in 1946 Survey	Type of Hospital	Total Bed Complement
129	Local General	9,262
15	Allied Special	670
7	Mental	8,278
24	Tuberculosis	2,092
2	Chronic Diseases	24
3	Other	77
Total 180		20,403

2. Legislation regarding appropriations, hospital licensing, enabling laws, student loans, and so on, was prepared, submitted to, and approved by the 1947 General Assembly.

3. The State Five-Year Hospital Plan was prepared, and on July 8, 1947, received the approval of the Surgeon General of the United States Public Health Service. The Federal pledge of aid to the states was ratified July 7, and North Carolina was allocated $3,431,550 for the year that began July 1, 1947.

4. About ten million dollars have been raised by 53 local hospital agencies toward their share of the cost of contemplated hospital projects. The local share of the cost of hospital projects ranges from one-sixth to one-half, averaging about one-third of the total for the entire state.

5. The Medical Care Commission, on October 28, gave preliminary approval to 14 hospital projects that encumber the following amounts:

Local agencies	$ 3,055,720
State agencies	3,811,614
U. S. Government	3,431,550
	$10,298,884

If the state-owned hospitals, within a reasonable period of time, come forward with approvable construction applications, approval of one or two of the 14 local hospital projects may be delayed until July 1, 1948, when the next fiscal year begins in order to make funds available this year toward some of the state-owned hospital projects.

6. Approximately 40 hospital sites have been inspected to determine their acceptability from the standpoints of central location, elevation, drainage, acreage, water, sewage, and electric facilities, roads, transportation facilities, and so on.

The State of North Carolina contemplates the expenditure for the five-year Hill-Burton period of about $51,000,000 for hospital construction. One-third of this amount is to be supplied by the Federal Government. Tentative allocation this year of $10,298,884 represents approximately one-fifth of the total amount expected for the five-year program."

This offers a challenge to the nurses of North Carolina to provide a broad plan for nursing care to the many patients who will be treated in these

hospitals. Every nurse in the state should interest herself in this program and work toward giving the best care possible.

The hospitals cannot be built in a day; neither can young women be prepared to nurse in a short time.

The Advisory Committee of the State Nurses' Association to the Medical Care Commission and the Joint Committee on Education of the State Association and the League have been working on plans. These plans were presented to the Medical Care Commission. Two years ago the Commission approved recommendations regarding Nursing Education and Nursing Service, one of which called for a survey of nursing resources and education in the state.

The Chairman of the Medical Care Commission called a two-day conference in Raleigh on April 19 and 20 to consider problems and needs in the nursing field. Invited from out of the state to participate in this discussion were the following people who are well informed on nursing problems: Miss Lucile Petry, Chief, General Nursing Service, U. S. Public Health Service; Miss Ella Thompson, National Association of Practical Nurse Education, New York, New York; Miss Marjorie B. Davis, Executive Secretary, National Nursing Council, Inc., New York; and Dr. W. T. Sanger, President, Medical College of Virginia, Richmond, Virginia. Also invited were Miss Miriam Daughtry, Secretary-Treasurer, N. C. Board of Nurse Examiners, Raleigh; and Dr. W. R. Berryhill, Dean of Medical School, University of North Carolina, Chapel Hill. This group met with members of the Executive Committee and the Committee on Nursing Education and Service.

An entire day--the nineteenth--was devoted to reviewing records and to discussions of North Carolina's resources, conditions and problems. The participants, not members of the Commission, were then requested to prepare a report with recommendations.

The report consisted of plans for a long-range program of nursing education for both professional and practical nurses. In order to understand the needs and to make plans, they recommended that a survey of nursing resources and needs be made, and suggested that the Medical Care Commission authorize the survey to be made by the University of North Carolina.

The Commission, in quarterly session in June 1948, approved this recommendation and the University was asked to proceed along the lines outlined by the special committee.

Dr. Frank Graham, President of the University of North Carolina, has appointed a committee representative of medicine, nursing, hospital, business, industry and agriculture to work out plans for the survey. Mr. James Clark, Chairman of the North Carolina Medical Care Commission, is serving as chairman of the committee. Dr. L. P. Richardson of the staff of the School of Public Health, University of North Carolina, is serving as Executive Secretary. The committee will meet in the near future and plans for the survey will be made.

REPORT OF COMMITTEE ON "AMERICAN JOURNAL OF NURSING"
Helen E. Peeler, R.N., Chairman

One meeting of this Committee was held in Raleigh at the time of the Midyear Meeting, March 4, 1948.

The purpose of the Committee is to promote reading and educational use of the Journal.

The Committee sent to the District Committees the following suggestions which may be used as methods to stimulate interest in reading the Journal:

1. Adopt the slogan "Read With a Purpose" and quote at frequent meetings.
2. Call for brief reports at the meetings of articles of interest in the issue of that month.
3. Devote one program a year to The American Journal of Nursing, developing the program in the form of a group discussion, a dialogue or a skit with student and graduate participation.
4. Encourage more articles for publication written by North Carolina nurses.

These suggestions were to be forwarded to the local nurses' clubs and alumnae associations by the District Committee.

REPORT OF COMMITTEE ON CONSTITUTION AND BY-LAWS
Mrs. Eva W. Warren, R.N., Chairman

Other members of the Committee on Constitution and By-Laws are Lillian M. George of Wilmington and Montrose Austin of Charlotte. The Committee met once, at Headquarters' Office in Raleigh on August 27, 1948.

The Committee reviewed and approved the revision of by-laws of District Eight of the North Carolina State Nurses' Association.

A questionnaire was sent to the presidents of all alumnae associations in February 1948 asking when they last revised their by-laws and if they planned to do so this year. The response to this questionnaire was very gratifying resulting in the revision of the by-laws of many alumnae associations which have been approved by this Committee.

The meeting on August 27 was called for the purpose of considering changes in the By-Laws of the North Carolina State Nurses' Association in order that they would conform with the By-Laws of the American Nurses' Association which had been revised at the Biennial Convention in Chicago, Illinois, in June 1948. The following revisions were recommended, approved by the Board of Directors of the North Carolina State Nurses' Association, the ANA Committee on Constitution and By-Laws and published in the Tar Heel Nurse:

REPORT OF COMMITTEE ON FINANCE
Mrs. Elizabeth C. Clement, R.N., Chairman

The Committee on Finance is composed of the Treasurer, Mrs. Effie L. Parker and Lelia Russell. One meeting of the Committee was held.

The budgets for Headquarters' Office and the North Carolina State Nurses' Association were considered carefully. Proposed budgets were prepared and recommended to the Board of Directors of the North Carolina State Nurses'

REPORT OF COMMITTEE ON LEGISLATION
Miriam Daughtry, R.N., Chairman

The Committee on Legislation is composed of Miriam Daughtry, Chairman, Mrs. Marie B. Noell, Co-Chairman, Mrs. Jessamine B. Cass, Winston-Salem, Mrs. Maude S. Morgan, Asheville, Ellen Bruton, Pinehurst, and Mrs. Hyla Sheffield Fountain, Wilmington. The Committee met once--on June 30, 1948, in Raleigh.

Throughout the year, several bulletins relative to legislation pertaining to nursing have been sent to presidents of district and alumnae associations, chairmen of nurses' clubs and members of the Board of Directors of the North Carolina State Nurses' Association.

This Committee has considered amendments to the existing Nurse Practice Act which would be most desirable, but does not recommend a definite program of legislation for the 1949 General Assembly. It does, however, recommend that the Association be prepared for any eventuality by having strong district and county Committees on Legislation ready for action during the 1949 General Assembly if necessary. Presidents of district nurses' associations have been urged to appoint county Committees on Legislation prior to November 15, 1948.

This Committee has followed the work of the Commission, provided by the 1947 General Assembly and appointed by the Governor, to study and investigate the twenty-one licensing boards of the state. The North Carolina Board of Nurse Examiners has cooperated fully by furnishing the Commission a verified statement containing information on laws, rules, regulations, number of licenses issued, annual income and disbursements during the past three years. The Secretary of the Board of Nurse Examiners and Educational Director of Schools of Nursing was interviewed by the Commission twice. The report of the Commission to the 1949 General Assembly will be considered carefully by this Committee and may necessitate rather rapid legislative action on the part of the Association.

The North Carolina State Nurses' Association is an organization member of the State Legislative Council, which was organized in 1920 for the purpose of coordinating the legislative interests and efforts of state-wide women's organizations in order to present a united front to the General Assembly and to avoid duplication of effort in offering bills, as well as opposing undesirable measures. The North Carolina State Nurses' Association was represented by the President, the Chairman of the Committee on Legislation and the Executive Secretary at meetings of the State Legislative Council on November 3, 1947, February 20 and May 14, 1948.

The Committee on Legislation has considered the following five-point program of the State Legislative Council, and recommends that it be approved by the North Carolina State Nurses' Association:

1. Provide an effective system, with adequate financial support, for the enforcement of the compulsory school attendance law.

2. Provide for minimum wage and maximum hour standards for women and minors.

3. Provide for state participation in general assistance for persons between 16 and 65 years of age in need of financial assistance.

4. Provide, through the School-Health Coordinating Service, for complete physical examinations for all school children at reasonable intervals with a definite plan for referrals for the necessary follow-up treatment.

5. Provide for strengthening the marriage requirements and safeguarding the divorce laws; and that in divorce proceedings involving children a definite plan for the care and custody of any child under 18 years of age must be presented to the judge hearing the case.

Much Federal legislation which affects nursing is constantly under consideration by the A.N.A. Special Committee on Federal Legislation. The Committee on Legislation of the North Carolina State Nurses' Association has reviewed the report of the A.N.A. Committee. This Committee urges all members of the Association to keep informed about Federal legislation affecting nursing through the press and the American Journal of Nursing.

REPORT OF COMMITTEE ON MEMBERSHIP
Mrs. Marie B. Noell, R.N., Chairman

The Committee on Membership is composed of the Executive Secretary of the North Carolina State Nurses' Association and the Secretary of each district nurses' association. No meetings have been held, but bulletins designed to stimulate membership drives have been sent to district and alumnae associations and nurses' clubs at intervals.

District treasurers were asked to follow up former members whose current dues had not been paid and encourage them to become reinstated.

The Chairman spoke to nurses taking State Board Examinations regarding membership in the professional nursing organizations and extended an invitation to all young graduates to become members of A.N.A. immediately after registration was established. A letter urging the young registered nurse to become a member was dispatched simultaneously with her certificate of registration.

The Chairman has written a personal letter to each nurse making any inquiry about membership, a copy of which is always sent to the secretary of the district association concerned. She also has taken advantage of every conference with individual nurses and field visits to speak on the value of membership in district, state and national professional nursing organizations.

REPORT OF COMMITTEE ON NURSING INFORMATION
Alma Kermon, R.N., Chairman

This Committee has worked closely with Headquarters' Office in promoting a program of public relations for the Association.

Many bulletins designed to inform nurses about the activities of the profession have been dispatched to leaders of district and alumnae associations and nurses' clubs. A series of releases was given to the press regarding the Programs of Economic Security, Recruitment of Student Nurses and Professional Counseling, and Placement, Pamphlets on Recruitment, Counseling, etc. have been distributed widely.

Much material and speakers have been provided for various units of the North Carolina Federation of Women's Clubs and civic organizations.

The Association has had the services of Public Relations Counsel for part of the year.

Miss Helen L. Peeler, a member of this Committee represented North Carolina at a meeting of the ANA Committee on Public Relations, at which time representatives from state nurses' associations were present.

The A.N.A. Public Relations Workshop, which is a five-hour sound-slide film, was used in Raleigh on August 13, 1948. Fifty-one nurses from eight of the nine district nurses' associations attended.

REPORT OF COMMITTEE ON PROGRAM
Mrs. Marie B. Noell, R.N., Chairman

The Committee on Program is composed of the Executive Secretary, the President of the North Carolina League of Nursing Education and the chairmen of all sections of the North Carolina State Nurses' Association.

One meeting was held on June 12, 1948, in Raleigh, at which time the program for the 1948 Annual Convention was planned. Miss Columbia Munds, Chairman of the Committee on Arrangements, met with us. Upon completion, the program was published in the September issue of the Tar Heel Nurse.

At the present time, the districts are represented as follows: District One--two beneficiaries; District Five--two beneficiaries; District Six--one beneficiary; District Seven--one beneficiary; District Eight--two beneficiaries; and District Nine--six beneficiaries.

Mrs. Glenn C. Cline, Chairman of this committee from January, 1946, asked to be relieved of this office and the present chairman was appointed June 1948. Mrs. Cline served on this committee most efficiently, and endeared herself to the beneficiaries by her unfailing courtesy.

REPORT OF SPECIAL ADVISORY COMMITTEE OF THE NORTH CAROLINA STATE NURSES' ASSOCIATION TO THE COMMITTEE ON NURSING EDUCATION AND SERVICE OF THE NORTH CAROLINA MEDICAL CARE COMMISSION

Mrs. Eva W. Warren, R.N., Chairman

The members of this Committee are Mrs. Eva W. Warren, Chairman, Helen E. Peeler, Mrs. Agnes P. Vester, Ruth May and Fannie Dean.

This Committee has held two meetings. The first meeting was held on Saturday, December 6, 1947, at Headquarters' Office, at which time the following recommendations were compiled to be presented to the Committee on Nursing Education and Service of the North Carolina Medical Care Commission:

1. That immediate steps be taken to provide for the Survey of Nursing Needs and Services already approved by the Medical Care Commission.

2. That the Medical Care Commission investigate the possibilities of the Hill-Burton Funds to finance this Survey.

3. That the Medical Care Commission investigate the possibilities of securing the assistance from the United States Public Health Service for the Survey.

4. That the Medical Care Commission avail itself of the Nursing Consultant Service of the United States Public Health Service in the Hospital Construction Planning.

5. That the recommendations of the Survey be used in working out both immediate and long-term plans for the preparation of nurses to meet the needs of the people of North Carolina. Plans for the professional nurses should include both basic and advanced programs. The advanced program should include both nursing education and public health nursing.

6. That the Student Loan Fund requirment regarding "practice in a town of two thousand" be changed to "practice in North Carolina," and that the time requirement be lowered to two rather than three years.

7. That loan funds be made available to registered, professional nurses for preparation for administrative, teaching and supervisory positions in hospitals and schools of nursing.

The second meeting was a joint meeting with the Joint Committee on Education of the North Carolina State Nurses' Association and the North Carolina League of Nursing Education. This meeting was held on Wednesday, June 16, 1948, at Headquarters' Office. At this time, the report of the Special Advisory Group to the Medical Care Commission was considered and the following recommendations were made to be presented to the Committee on Nursing Education and Service of the North Carolina Medical Care Commission:

1. That immediate steps be taken to make a survey of the resources for nursing service and nursing education in North Carolina; and that the recommendations by the Special Advisory Group I, A (scope) B (responsibility for Survey) be followed.

2. That since one of the first needs in nursing education is a supply of teachers of nurses and directors of nursing education and service, which requires graduate study of at least one year, that the state should establish a scholarship fund for this purpose and also small scholarships for attending summer school sessions or other courses of less than one year. The recipient of such a scholarship would be obligated to serve in nursing positions in this state for a set period of time. If the recipient left the state or retired from professional nursing, the scholarship should become a loan payable to the Fund.

3. That the facilities of the State Vocational Division of the Department of Public Instruction be utilized in the development of the practical nurse program of education in North Carolina; and that a qualified graduate registered nurse be added to the staff of this division to assist with the primary responsibilities of this program.

4. That a committee be appointed by the North Carolina Medical Care Commission composed of the educational director of schools of nursing in North Carolina; Counselor of the North Carolina State Nurses' Association; representatives from Duke, Bowman-Gray and the University of North Carolina Medical Schools, larger and smaller hospital schools of nursing in the state including hospital administrators and qualified nursing personnel and interested lay representatives to study the proposed plan for the centralization of schools of nursing and to make plans toward the implementation of such a system.

5. That since the suggested survey in the Report of the Advisory Group is so urgent, that the North Carolina Medical Care Commission approach the Governor and the Budgetary authorities of the state with the view of securing from $5,000.00 to $10,000.00 from emergency or other funds in order to get the suggested survey started without delay; failing this the need of these funds should be stressed by the Medical Care Commission in their budget hearing preparatory for the General Assembly of 1949.

REPORT OF SPECIAL ADVISORY COMMITTEE TO THE COMMITTEE ON PROFESSIONAL COUNSELING AND PLACEMENT SERVICE

Helen E. Peeler, R.N., Chairman

The Special Advisory Committee to the Committee on Professional Counseling and Placement Service is composed of the following members: Helen Nahm, Joyce Warren, C. Margaret Johnson, Elaine Washburn, Edith Arrington Religious Director, School of Nursing, N. C. Baptist Hospital, Winston-Salem, Don Shumaker, Associate Editor, The Citizen, Asheville, Catherine Dennis, State Supervisor, Home Economic Education, Department of Public Instruction, Raleigh, J. P. Richardson, Superintendent of Presbyterian Hospital, Charlotte.

The Committee has not held a regular meeting, but six of the nine members met with the members of the Committee on Professional Counseling and Placement Service, District Professional Counseling and Placement Service Committees and local secretaries in Raleigh, April 30, 1948, at which time Miss Mary V. Barrett, Field Consultant, American Nurses' Association Professional Counseling and Placement Service, was the guest speaker.

The purpose of the Conference was to develop a better understanding of the organization and functions of Professional Counseling and Placement Service in order to better serve the individual nurse, employer, the patient, and the public on a state and local basis.

Miss Barrett gave a very detailed and interesting explanation of the Professional Counseling and Placement Service and the duties of the Counselor. Her presentation was followed by a general group discussion. The following points were discussed:

1. References--how secured and the type of reference requested.

2. Organization of local areas of the Professional Counseling and Placement Service.

3. Counseling and guidance programs in schools of nursing as related to the State Professional Counseling and Placement Service.

4. Does the nurse lose her individuality by using the Counseling and Placement Service to secure a position?

5. Need for more publicity on a local level to inform individual nurse.

6. The functions of district committee and local secretaries.

7. Books and literature on counseling in schools of nursing.

The Committee members and others attending the Conference made the following recommendation to the North Carolina League of Nursing Education: That the League program for the Annual Meeting of the North Carolina State Nurses' Association be centered around counseling and guidance programs for both students and graduates emphasizing counseling and guidance programs in schools of nursing.

REPORT OF SPECIAL COMMITTEE ON CIVIL SERVICE
Amy Louise Fisher, R.N., Chairman

The Committee on Civil Service has not had a meeting. One of the members has moved out of the state, the other two reviewed individually the paper "Opportunities and Developments in Civil Service With Regard to Nursing" presented by Miss Ruth Heintzelman, R.N., at a meeting of the American Nurses' Association House of Delegates, Stevens Hotel, Chicago, Illinois, on June 4, 1948. More than thirty nurses from North Carolina attended this meeting and had the privilege of hearing the paper presented.

At the suggestion of the Committee, the Headquarters' Office of the North Carolina State Nurses' Association distributed mimeographed copies of this paper to the Board of Directors, the district presidents and the directors of schools of nursing.

The Committee recommends it as valuable material for use in Professional Adjustments classes.

Other members of this Committee are Miriam Daughtry and Mae Duncan.

No applications for loans have been received.

REPORT OF SPECIAL COMMITTEE ON PREPAYMENT PLANS
Mrs. Emily J. Pickard, R.N., Chairman

The other members of this Committee are Flora Wakefield and Mrs. Marie B. Noell. No formal meetings have been held this year, but the members have discussed the information available relative to the inclusion of nursing in prepayment plans.

We wish to urge each member of the Association to read "Nursing in a Program of Prepaid Medical Care," By Dr. Paul R. Hawley, Chief Executive Officer of the Blue Cross Commission of the American Hospital Association and of the American Medical Care Plans, Inc., which was read at the Biennial Convention in Chicago in June and was published in the August 1948 issue of the American Journal of Nursing. We also suggest that all nurses read "Nursing in Health Insurance Plans," by Dr. Franz Goldmann, Associate Professor of Medical Care, Harvard School of Public Health, and author of "Voluntary Medical Care Insurance in the United States" (Columbia University Press, New York). Dr. Goldmann's presentation at a meeting of the N.O.P.H.N. during the Biennial Convention appears in the August 1948 issue of Public Health Nursing.

REPORT OF SPECIAL COMMITTEE ON PROFESSIONAL COUNSELING AND PLACEMENT SERVICE
Helen E. Peeler, R.N., Chairman

The Special Committee on Professional Counseling and Placement Service is composed of Helen E. Peeler, Chairman, Helen Nahm and Mrs. Louise P. East. The Committee met in Durham on February 5, 1948.

The Committee outlined its aims as follows: 1. To help the nurses, especially nurses in administrative positions, to become better acquainted with the functions of the Professional Counseling and Placement Service in order that they may interpret these functions to graduate nurses and senior students. 2. To urge more nurses to file their credentials with the Professional Counseling and Placement Service and to use the Service for both counseling and placement. 3. To ask for more cooperation from the District Professional Counseling and Placement Service Committees.

The Committee made the following suggestions: 1. That the Counselor ask Miss Mary V. Barrett, American Nurses' Association Consultant, to visit North Carolina on April 30, 1948, and meet with the Professional Counseling and Placement Service Committee and the Advisory Committee to the Committee on Professional Counseling and Placement Service, district committees, local secretaries to discuss the organization and functions of the Professional Counseling and Placement Service in order to better serve the individual nurse, the employer, the patient and the public. 2. That the Counselor visit the local areas every two to three months, and each district once a year, contacting local hospitals and schools of nursing. 3. That the Counselor contact high school counselors or advisors while visiting in local areas. 4. That the Counselor prepare a mimeographed bulletin describing the Professional Counseling and Placement Service for distribution.

REPORT OF SPECIAL COMMITTEE ON RED CROSS NURSING SERVICE
Mrs. Lucille C. Hartman, R.N., Chairman

The Committee is composed of Mrs. Lucille C. Hartman, Chairman, Alma Kermon and Mrs. Maude S. Morgan.

No meetings have been held, however, members of the Committee have:

(1) Acted as liasion between the North Carolina State Nurses' Association and the Red Cross Chapter Committees during the

polio epidemic this summer when three hundred nurses were brought in the state to care for polio patients. Information on the cooperative action of the National Association for Infantile Paralysis and the American Red Cross with regards to recruiting nurses for polio epidemics was sent to presidents or chairmen of all local units of the State Nurses' Association.

(2) Assisted in providing Red Cross material for programs at state and district meetings of the nurses' associations.

(3) Arranged for a speaker and a Red Cross exhibit for the Annual Convention.

REPORT OF SPECIAL COMMITTEE ON REGISTRIES
Elaine Mashburn, R.N., Chairman

The Committee on Registries has had one meeting this year. The meeting was held during the Conference for Registrars of Nurses' Professional Registries which was held February 16-18, 1948, Sherman Hotel, Chicago, Illinois. All members were present.

Seven of the eight Official Registries were represented at the Conference.

The Committee recommended to the Board of Directors of the North Carolina State Nurses' Association that a minimum salary of $150 be paid Registrars. Other personnel policies were not defined at this time.

A survey of Registries was made in March 1948. Registry fees range from $15 to $25. Private duty nursing fees range from $8 to $9. Twenty-five unofficial Registries are serving smaller towns in North Carolina.

REPORT OF SPECIAL COMMITTEE ON STRUCTURE STUDY
Florence K. Wilson, R.N., Chairman

The first activity of the Structure Study Committee was in the form of a letter sent out December 1, 1947, to each district, containing a release from the Committee on the Structure of National Nursing Organizations giving the action and the plans of the Committee. This letter was sent to all members of the Structure Committee of the North Carolina State Nurses' Association. This letter gave the membership of the new Committee on Structure of National Nursing Organizations and their plans for the year.

The first meeting of the Structure Committee was held June 29, 1948, in Raleigh; all members of the Committee and the presidents of the districts were invited to this meeting and the members of the Committee on Structure Study of the North Carolina State Nurses' Association. The discussion centered around the eight Premises which are listed on page 3 of "News Letter" number 1 or on page 321 of the May 1948 issue of the American Journal of Nursing.

The Workshop Guides 7 and 8 were discussed to some extent. As a result of this discussion, a list of questions to be answered relative to the study of the professional organizations was prepared and sent to the district and

alumnae associations and nurses' clubs in North Carolina. They were requested to discuss these questions at one of their meetings and to send in the considered answers of their members.

The Chairman of the Structure Committee spoke at the meeting of District Eight in Wilson. This was preliminary to a meeting of this district for the discussion of the questions which had been submitted.

The Executive Secretary spoke on Structure at meetings of Districts One and Two early in September.

REPORT OF SPECIAL COMMITTEE TO STUDY THE STRUCTURE OF THE NORTH CAROLINA STATE NURSES' ASSOCIATION AND NORTH CAROLINA LEAGUE OF NURSING EDUCATION
Mrs. Marie B. Noell, R.N., Chairman

Other members of this Committee are: Mrs. Effie L. Parker, President of the League, Raleigh; Hazel Rosemond, private duty, Salisbury; Frances Stanton, public health, Elizabeth City; and Hazel Johnson, institutional, High Point.

This Committee met jointly with the Committee on Structure of the North Carolina State Nurses' Association in Raleigh on June 29. The chairman submitted a rough draft of twenty-one district nurses' associations which might be considered to replace the existing nine district nurses' associations. No action was taken regarding this. The president of the League requested clarification regarding the joint activities of the North Carolina State Nurses' Association and the North Carolina League of Nursing Education and how such are financed.

After much investigation, there seems to be only one established policy between the organizations: That the North Carolina League of Nursing Education functions as the department of education of the North Carolina State Nurses' Association.

Joint efforts during the past several years and at present are: (1) Cooperation in sponsoring summer school courses with the North Carolina State Nurses' Association always underwriting the cost. (2) Joint arrangements for the annual convention with the North Carolina State Nurses' Association being responsible for the cost of programs, etc. (3) Joint Committees on Student Nurse Recruitment and Education with the North Carolina State Nurses' Association paying cost of meetings, etc.

REPORT OF SPECIAL COMMITTEE ON EDUCATION OF THE N.C.S.N.A.
and
REPORT OF JOINT COMMITTEE ON EDUCATION OF THE NORTH CAROLINA LEAGUE OF NURSING EDUCATION AND NORTH CAROLINA STATE NURSES' ASSOCIATION
Helen Nahm, R.N., Chairman

A meeting of the Committee on Education of the North Carolina State Nurses' Association was held in Raleigh on March 6, 1948, with the following members present: Edna L. Heinzerling, Mildred Harrison, Frances Farthing, Miriam Daughtry, Mrs. Effie L. Parker and Helen Nahm, Chairman. Other members

of the Committee who were unable to be present were Dean Robert B. House and Dr. Moir S. Martin.

The following guests were invited to attend the meeting: Mrs. Eva W. Warren, Florence K. Wilson, Lillian A. Gardiner, Amy Fisher, Ruth Hay, Flora Wakefield, Helen Peeler, Lillian Bayley and Mr. Sample B. Forbus.

The Chairman explained that the Committee on Education had functioned in past years in sponsoring summer courses in nursing education at the University of North Carolina. She stated that she believed that an enlarged or joint committee composed of members of the State Nurses' Association, the State League of Nursing Education and also of lay people and individuals from other professional groups might continue to function in studying educational needs of nurses in North Carolina. She asked for suggestions and recommendations from all members present. These suggestions and recommendations are summarized as follows:

1. Provisions need to be made for the continued education of graduate nurses. The University of North Carolina and Duke University should do more joint planning for such education. However, professional groups should present their needs.
   A. Courses should be planned to help nurses meet requirements for faculty positions set up by the Standardization Committee for professional schools of nursing.
   B. Institutes or some other from of service should be provided through which nurses interested in improving their programs can get help.
   C. There is a need for training of nurses for responsible positions in teaching and administration. Better preparation of nurses in the clinical areas is also very much needed.
   D. Hospital administrators should encourage nurses to take additional training.
   E. Nurses need better training in the care and management of mental patients.

2. Basic programs in nursing need to be improved.
   A. Small hospitals should be discouraged from opening schools of nursing.
   B. Better selection of students is needed.
   C. The social and health concepts should be introduced into the basic curriculum of the school of nursing.
   D. The development of university schools of nursing should be encouraged.
   E. Schools of nursing should do more to give the senior students an insight into public health nursing, its opportunities and responsibilities.

3. Efforts should be directed toward improvement of nursing service.
   A. Assistance should be given in defining qualifications which are needed for various positions in hospitals and schools of nursing.
   B. Better training of nurses in responsible positions is needed. Public health agencies accept nurses in first level positions and then say that in a reasonable time they must have completed a program in public health nursing. Couldn't hospitals follow the same practice?

C. Concentration on building up nursing service is needed so that students will be freed from the pressures to which they are subjected at the present time.
D. To build a better nursing service, we must sell staff nursing to graduate nurses.

4. A better program of public relations is needed to educate the public about nursing. To educate the public about nursing, nurses should present their needs to Community Councils.

5. We need to find out more about schools of nursing in North Carolina before we can make plans for the future.

6. The objectives of the Committee on Education of the State Nurses' Association and of the League Committee on Integration of Social and Health Aspects should be clarified. The latter Committee should be a sub-committee of the League Curriculum Committee.

At the close of the discussion, it was recommended that the Committee on Education be made a Joint Committee of the State Nurses' Association and the State League of Nursing Education and that lay members be included.

In May 1948 a Joint Committee was appointed by Miss Edna L. Heinzerling, President of the State Nurses' Association, and Mrs. Effie L. Parker, President of the State League of Nursing Education. Members of this Committee are as follows: Hildred Harrison, N. C. Baptist Hospital, Winston-Salem, Mrs. Eva W. Warren, Watts Hospital, Durham, Helen Hahn, Division of Nursing Education, Duke University, Durham, representing the State League of Nursing Education; Ruth Hay, School of Public Health, Chapel Hill, Amy Louise Fisher, State Board of Health, Raleigh, Miriam Daughtry, Educational Director, N. C. Board of Nurse Examiners, Raleigh, representing the North Carolina State Nurses' Association; Dr. Moir S. Martin, Mount Airy, Mrs. Victoria C. Nielson, Woman's College, Greensboro, Dean Robert B. House, University of North Carolina, Chapel Hill, representing the medical profession and other interested groups.

Mrs. Victoria C. Nielson declined to serve on the Committee, and Miss Ruth Dalrymple of the Woman's College of the University of North Carolina at Greensboro was appointed to serve in her place.

The Joint Committee on Education met with the Advisory Committee of the North Carolina State Nurses' Association to the Committee on Nursing Education and Service of the North Carolina Medical Care Commission in Raleigh on June 16, 1948. The following members of the Joint Committee on Education were present: Hildred Harrison, Amy L. Fisher, Mrs. Effie L. Parker, Miriam Daughtry, Mrs. Eva W. Warren, Dr. Robert B. House, Helen Hahn, Chairman. Others attending the meeting were Mrs. Marie B. Noell and Helen Peeler.

At the close of the meeting of the two committees, a meeting of the Joint Committee of the State Nurses' Association and the State League of Nursing Education was held. It was suggested at this meeting that a job analysis be made of positions from director of nurses to the staff nurse. Miss Hahn asked Miss Peeler to make up a suggested job analysis to be presented at the next meeting of the Committee. It was also recommended that each member bring a suggested plan for a year's in-service training program for graduate nurses to the next meeting for study.

There was much discussion regarding the importance of the education of the nurse. This discussion is summarized as follows:

1. It is the nurse's duty to show the doctor that the nurse with a good education can do a better job than the one with a poor education.

2. We must prevent doctors and hospital administrators from thinking that the graduate nurse will be replaced by the practical nurse.

3. Hospital administrators and directors of nurses must be stimulated to realize the importance of having more members of their staffs utilize educational opportunities which are available at the present time.

It was suggested that a bulletin entitled, "Nursing Positions in North Carolina," including an analysis of the jobs and a list of schools from which preparation for such jobs may be obtained, be published.

The Committee decided to meet again in September for the purpose of formulating Committee objectives.

SUPPLEMENTARY REPORT OF JOINT COMMITTEE ON EDUCATION OF THE NORTH CAROLINA STATE NURSES' ASSOCIATION AND NORTH CAROLINA LEAGUE OF NURSING EDUCATION

Helen Hahn, R.N., Chairman

A second meeting of the Joint Committee on Education of the North Carolina State Nurses' Association and the North Carolina League of Nursing Education was held in Raleigh on October 1, 1948. Members of the Committee agreed that the purposes of the Committee should be the following:

1. The study of ways and means of providing the best possible basic preparation for the professional nurse (both general education and professional education).

2. The study of ways and means of providing for the continued education of the graduate nurse (both general education and professional education).

3. Assisting in the planning of programs for the continued education of the graduate nurse; such programs to include in-service educational programs, institutes, summer courses, extension courses and degree programs in both nursing education and public health nursing.

4. Stimulating employers of nurses to give financial assistance, time and salaries to nurses who are enrolled in such programs.

5. Offering advice and assistance in the planning of basic and advanced educational programs for nurses to the representative of professional nursing on the Medical Care Commission and to the Joint Committee on Standardization.

Tentative recommendations with regard to qualifications and preparation of faculty members in schools of nursing, which has been formulated by

Miss Peeler were considered. It was recommended that each Committee member study these recommendations and make suggestions and comments and that a sub-committee then revise the original recommendations and present them at the next meeting of the Education Committee.

The problem of providing satisfactory in-service educational program for graduate nurses was discussed. Miss Harrison presented an outline of a program which will be carried on at the N. C. Baptist Hospital in Winston-Salem during the coming year. Other members of the Committee also presented suggestions. It was recommended that a sub-committee be appointed to outline general procedures for setting up in-service programs and that when this outline is prepared, it be distributed to all hospitals and schools of nursing in North Carolina.

Dean House stated that it might be possible for the University of North Carolina to offer extension courses to graduate nurses at certain centers in the state, provided a large enough number was enrolled to make it financially feasible. He also stated that he believed that educators in universities, colleges and high schools in the state would be willing to give assistance with in-service educational programs, provided their travel expenses were paid.

A sub-committee was appointed to work with the Chairman of the Committee on Education, both on the revision of recommendations with regard to faculty preparation and qualification and on the plans for in-service educational programs. Members of the sub-committee are Miss Peeler, Miss Daughtry and Mrs. Warren.

The question of whether the Education Committee should be a League Committee or continue to be a Joint Committee was discussed. Because of the League's inability to provide funds to cover expenses of the Committee, it was decided that it should continue as a Joint Committee. The recommendation was made that this Committee be a large Committee with three sub-committees, one to consider basic nursing programs, a second in-service educational programs, and a third advanced educational programs for the graduate nurse.

REPORT OF JOINT COMMITTEE ON STUDENT NURSE RECRUITMENT OF THE NORTH CAROLINA STATE NURSES' ASSOCIATION AND THE NORTH CAROLINA LEAGUE OF NURSING EDUCATION

Helen E. Peeler, R.N., Chairman

The Joint Committee on Student Nurse Recruitment of the North Carolina State Nurses' Association and the North Carolina League of Nursing Education met in Raleigh, February 4, 1948, to make plans for the 1948 contest to select and crown "Miss North Carolina Student Nurse of 1948" and for the recruitment tour to follow the contest.

The finals of the contest were held in the Memorial Auditorium in Raleigh, April 20, 1948, at 8:30 P. M., at which time Mrs. Ann McSwain Harrell of Evanston, Illinois, a senior student at Duke University School of Nursing, was selected and crowned "Miss North Carolina Student Nurse of 1948."

During a two weeks' tour, May 9-21, Mrs. Harrell, accompanied by Helen E. Peeler, Associate Executive Secretary and Counselor, visited seventeen high schools and colleges, spoke before seven civic organizations, spoke on ten radio programs and was interviewed by many other groups such as the mayor, members of the chamber of commerce and newspaper editors.

A recent survey of the thirty-five white accredited schools of nursing in North Carolina reveals that the contest and tour were a success. According to this report, the total enrollment for the forty-one white and Negro schools of nursing will surpass our quota of one thousand student nurses to be enrolled in 1948.

In addition to the success obtained this year, the contacts made in high schools and colleges will probably have a definite influence on recruitment for the next two or three years.

Twenty-two schools felt that the contest should be repeated in 1949 and a great number of schools expressed their gratitude for the favorable publicity which their school of nursing received during the contest and tour.

REPORT OF NORTH CAROLINA LEAGUE OF NURSING EDUCATION
Mrs. Effie L. Parker, R.N., President

Number of Meetings Held - 1
Number of Meetings of Board of Directors - 2
Membership - 91

The officials of State Hospital at Raleigh entertained the members of the North Carolina League of Nursing Education, Public Health Section and delegates of the North Carolina State Nurses' Association attending the midyear meetings at a dinner on March 5, 1948. Following the dinner, a program sponsored by the League and the Public Health Section was rendered as follows:

Program for Group Discussion on Integration of the Social and Health Aspects in the Basic Curriculum

Introduction: Philosophy of Integration - Helen Nahm, Ph.D., Director of Nursing Education, Duke University, Durham. Group Discussion - Maude McCracken, Director, Medical Social Work Department, Duke University Hospital; Lois Cox, Educational Director, Durham County Health Department; Dorothy H. Smith, Assistant to the Dean in Teaching and Curriculum, Duke University School of Nursing; Hilda Rakes, Surgical Supervisor, Watts Hospital School of Nursing; Mildred Crawley, Instructor in Pediatrics, Duke University School of Nursing; Mrs. Lyrtle F. Leonard, Head Nurse, Duke Hospital; Wanda Slaybaugh, Assistant Instructor in Nursing Arts, Duke University School of Nursing; Helen Nahm, Ph.D., Director, Division of Nursing Education, Duke University; Leader: Lillian A. Gardiner, SANO, U. S. Public Health Service, Division of Nursing Education, Duke University. The discussion was summarized by Miss Helen Nahm.

The League participated in the Student Nurse Recruitment Program: "The Crowning of Miss North Carolina Student Nurse of 1948" in cooperation with the North Carolina State Nurses' Association and other health organizations of the state. We feel that the program was a success and recommend that it be repeated in 1949.

The committee members have been active, and we expect good reports at our business meeting.

Two important joint committees of the State Nurses' Association and League have been functioning this year--Joint Committee on Education and Joint Committee on Student Nurse Recruitment. Reports of these committees are included in the Convention Reports.

The League was well represented at the convention of the National League of Nursing Education and the American Nurses' Association, which was held in Chicago in May 1948. The President attended as an official delegate of the League.

The League has been represented at all the regular and special meetings of the Board of Directors of the North Carolina State Nurses' Association.

REPORT OF PUBLIC HEALTH SECTION, N.C.S.N.A.
Jean P. Blue, R.N., Chairman

The following officers of the Public Health Section of the North Carolina State Nurses' Association were elected at the annual business meeting of the Section in Asheville on December 15, 1947: Chairman - Jean P. Blue, R.N., Raleigh; First Vice-Chairman - Atha Howell, R.N., Greensboro; Second Vice-Chairman - Mrs. Florence Johnson, R.N., Goldsboro; Secretary - Annie H. Robinson, R.N., Concord.

At the midyear meeting of the North Carolina State Nurses' Association in Raleigh, March 4, 5, 6, 1948, the Public Health Section held a short business meeting at State Hospital on March 5, with the Chairman presiding. In the absence of the Secretary, Miss Annie Robinson, Mrs. Louise P. East acted as secretary.

A letter was read from N.O.P.H.N. regarding the public health nurse's uniform. Any change in the uniform was discouraged by N.O.P.H.N. It was brought out, however, that white collars could be worn if so desired.

A notice regarding the activities of the Idell Buchan Memorial Loan Fund Committee was read by Mrs. East. This committee was appointed by the North Carolina Public Health Association to raise a fund of at least $500 in honor of Miss Buchan. This fund will be used for the benefit of public health nurses from North Carolina who are students of public health at the University of North Carolina. The Section voted to support this movement. Ways and means for raising money were discussed.

Following the business meeting, the Public Health Section with all others attending the midyear meeting were dinner guests of State Hospital.

Immediately following the dinner, a program sponsored by the North Carolina League of Nursing Education and the Public Health Section of the North Carolina State Nurses' Association was presented. This program was a round table discussion on "Integration of the Social and Health Aspects in the Basic Curriculum." Participating in the discussion were outstanding leaders in nursing education. This was very informative and stimulating. Recommendations were made that we have more programs of a like nature in district meetings throughout the state.

Committees appointed for the year were as follows: Program Committee - Atha Howell, R.N., Chairman, Greensboro; Elizabeth Moore, R.N., Raleigh; Mrs. Kate Williamson, R.N., Fayetteville; Mrs. Edith Brocker, R.N., Chapel Hill. Nominating Committee - Mrs. Maude S. Morgan, R.N., Chairman, Asheville; Mrs. Emily Pickard, R.N., Durham; Mrs. Adelaide Peiffer, R.N., Wilmington.

During the Public Health Nursing Week, public health organizations throughout the state observed the week by talks to civic clubs, exhibits, and radio programs. Your chairman appeared on a radio program over WPTF with Mrs. W. C. Pressley. This program was in the form of an interview intended to acquaint the public with the scope of a public health nurse's work. Many favorable comments were received regarding the broadcast.

As a member of the Board of Directors of the North Carolina State Nurses' Association, your chairman has attended all of the regular and called meetings of the Board. Many matters of interest and importance to all nurses were discussed at these meetings. One does not realize the time and effort required to keep the machinery of an organization, such as the North Carolina State Nurses' Association, going until one really has an inside view. I feel that it would be well if each member of the Association could at some time serve as a member of the Board of Directors, and in this way come to more fully realize and appreciate the work done by our executive staff.

REPORT OF PRIVATE DUTY SECTION, N.C.S.N.A.
Paulyne Kenney, R.N., Chairman

The midyear meeting of the Private Duty Section of the North Carolina State Nurses' Association was held at State Hospital, Raleigh, March 5, 1948. Thirty-four members and five visitors attended. Eight district private duty sections submitted reports.

A report of this Section was prepared and sent to the Biennial Convention.

A survey of private duty fees was made in February, discussed at the midyear meeting and published in the spring issue of the Tar Heel Nurse.

Miss Thelma Laird, Associate Executive Secretary of ANA, spoke at the midyear meeting of the Section on the advantages of private duty nurses formulating minimum state-wide standards for private duty nurses. After much discussion about state-wide minimum standards of fees, hours of duty and other personnel practices for private duty nurses, the Section voted to take action on this matter at the annual business session in October 1948.

Suggestions were made to the A.N.A. Private Duty Section Committee on Nominations as to officers and to the Secretary of the A.N.A. Section for committee members.

Your Chairman has received the following communications from Harriet Stambach, Chairman of the A.N.A. Private Duty Section:

July 30, 1948 - "The officers of the A.N.A. Private Duty Section join me in sending greetings and best wishes for a happy vacation time.

In compliance with requests we are enclosing the following material:

1. Copy of the rules for the A.N.A. Private Duty Section as amended during the 1948 biennial meetings of the Section, and,

2. Copy of the resolutions adopted by the A.N.A. Private Duty Section during the 1948 biennial meetings of the Section.

At this time we are unable to send you a copy of the recommendations made by the Section to the A.N.A. Board of Directors. The recommendations will be presented for consideration at the next Board meeting. Following that meeting we will send you a copy of the recommendations, plus the Board action on them.

One of the tasks confronting your officers is the appointment of standing committees for the A.N.A. Private Duty Section. It may be necessary to ask you for additional names in order to make these committee appointments; so if you could be giving some thought to this matter, it will save time if it is necessary to make such a request.

You will be interested to know that we are making tentative plans for a workshop for the chairmen of state private duty sections. We hope arrangements can be developed so that the workshop will be held late this fall. Also being considered is some system whereby state private duty section chairmen can exchange information informally. Details concerning these two projects will be sent you as soon as more definite plans are completed.

In the meantime, your officers sincerely hope that each of you will not hesitate to submit any suggestions that you think will contribute to the effectiveness of our private duty section."

August 30, 1948 - "For a long time state private duty section chairmen have requested that some provision be made whereby they could have an informal exchange of information. We are glad to tell you that we are going to attempt to fill this need. The success of the venture is wholly dependent upon the cooperation and interest of state section chairmen. A.N.A. Headquarters office will mimeograph and mail the material; but all material, with the exception of that supplied by your A.N.A. Private Duty Section chairman, must come from you.

We hope to have the first issue ready by October. This means that any material you wish to include should be in this office by September 20; this is our first attempt and we will all learn as we go along.

Probably you are wondering what to say. In the first place, you might mention items about which you would like comment from other chairmen. Perhaps you in your state have been able to enroll 100% of your private duty nurses as members in the state nurses' associations. The other chairmen would be interested to learn how you accomplished this. We hear that in some areas private duty nursing is included in prepayment health plans--is it successful? How did the private duty nurses in your state gain the cooperation of the hospital authorities? What kind of program did you have at that recent meeting that created so much interest? If these suggestions have made you think of something you would like to say or hear about, they have served their purpose.

This is the only notice that will be sent you concerning this subject, so do not neglect to send your contribution to Harriet Stambach, R.N., Chairman,

A.N.A. Private Duty Section, 1790 Broadway, New York 19, New York, by September 20.

You will be interested to know that after serious consideration, it seems advisable to plan the workshop for next February instead of late this fall or early in the winter. This conclusion was arrived at because the large number of state meetings in the fall and the holidays of the late fall and early winter make it impossible to plan a meeting during that period so that all chairmen could attend.

We feel sure that the private duty section chairmen will be glad to know that Mrs. Dorothy Hinckley is joining the A.N.A. Headquarters' staff of September 1. Mrs. Hinckley is coming directly from the field of private duty nursing and one of her major responsibilities on the staff will be in the interest of our private duty group."

Letters have been sent to all district sections in regard to meetings.

Several private duty nurses have been recruited through the Section for the polio emergency. Different sections have given donations to this cause.

Your Chairman attended all meetings of the Board of Directors of the Association and a workshop on Public Relations in Raleigh on August 13.

REPORT OF INSTITUTIONAL STAFF NURSE SECTION, N.C.S.N.A.
Mrs. Lena P. Stanley, R.N., Chairman

Other officers of the Section are: First Vice-Chairman - Rhoda Ann Gardner, R.N., N. C. Baptist Hospital, Winston-Salem; Second Vice-Chairman - Mrs. Myrtle Leonard, R.N., Duke Hospital, Durham; Secretary - Mrs. Louise C. Hayduke, R.N., James Walker Memorial Hospital, Wilmington.

The midyear meeting of the Section was held at State Capitol in Raleigh on March 5, 1948, with approximately twenty-five members present representing seven district sections.

Miss Yvonne Ward, Assistant Executive Secretary of A.N.A., attended the midyear meeting and explained that there had been a resolution adopted by the A.N.A. Board of Directors that the Institutional Staff Nurse Section be divided into two groups: one for supervisors up and one for head nurses down. During the Biennial Convention in Chicago in June, the A.N.A. Administrative Nurse Section was organized and will include nurses in administrative and supervisory nursing staff positions. The Institutional Staff Nurse Section recommended to the A.N.A. Board of Directors that its name be changed to the A.N.A. General Duty Nurses Section and that membership include nurses employed on a staff basis who actually give bedside nursing care. Head nurses may choose membership in either section on the basis of the degree of bedside care she renders. The section voted to consider the matter of two sections at the annual meeting in October.

The North Carolina State Nurses' Association conducted a two-day Institute for the Institutional Staff Nurse Section in Raleigh, March 4 and 5,1948. Three members of the A.N.A. staff contributed to the institute program: Thelma Laird, Associate Executive Secretary, Yvonne Ward and Teresa Hayes, Assistant Executive Secretaries. One hundred and eighteen nurses registered for the institute.

Geraldine Maxwell (now Mrs. Paul Adams), Staff Nurse at Baker-Thompson Memorial Hospital, Lumberton, and "Miss North Carolina Student Nurse of 1947," represented North Carolina staff nurses at a national conference on A.N.A. Economic Security Program, which was held in San Francisco, California, last April. Mrs. Adams prepared a report of the conference which was published in the September issue of the Tar Heel Nurse.

Your Chairman attended the Institute for Institutional Staff Nurses in Raleigh, March 4 and 5; the Workshop on Public Relations in Raleigh on August 13; the A.N.A. Biennial Convention in Chicago, Illinois, May 31 - June 4; a state-wide conference on Professional Counseling and Placement in Raleigh in April; the final contest to crown "Miss North Carolina Student Nurse of 1948" in Raleigh in April; and all meetings of the Board of Directors of the North Carolina State Nurses' Association.

Your Chairman served as a member of the A.N.A. Committee on Resolutions for the Biennial Convention in Chicago, Illinois, May 31 - June 4.

The progress of the Economic Security Program has been of primary concern to the Section during the past year. The officers of the Section have been in close touch with the Headquarters' staff regarding the implementation of the program in several institutions. While much opposition has been encountered, employment conditions in several hospitals have very definitely been improved.

REPORT OF OFFICE AND INDUSTRIAL SECTION, N.C.S.N.A.
Frances Beck, R.N., Chairman

No mid-year meeting of this Section was held.

Mrs. Katy Birmingham, of Charlotte, who was elected Chairman, resigned as of April 28, 1948. As Vice-Chairman, I automatically became your Chairman on May 12, 1948. Miss Ruth Miller of Greensboro is Secretary.

NORTH CAROLINA BAPTIST ALUMNAE ASSOCIATION
Mrs. Lucielle H. Oliver, R.N., President

The North Carolina Baptist Hospital Alumnae Association has had four meetings since the midyear meetings in March, with an average attendance of fifteen.

The "Alumnae News" is edited and mailed monthly to all members, including the two vacation months of July and August.

On June 25 and 26, we celebrated our first Homecoming. It was really a success! This big event marked the twenty-fifth anniversary of the hospital and the twenty-third anniversary of the school of nursing. Out of three hundred graduates from 1926 - 1948, one hundred and thirty returned home with a representation from each class. Two honorary members, Miss Edna L. Heinzerling, Director of Nurses, and Mrs. Frances Horne Smith, a former Instructor, were also present. The climax of the Homecoming was a banquet and dance in the Ballroom of the Robert E. Lee Hotel with an orchestra for the dance. We hope to have another before too long, in spite of the fact that we had to draw from our bank account. The Association sponsored a "Talent Show" in March and cleared $150. With the total expense of the Homecoming, which was approximately $600, the Association still has a balance of $210.

The Association assisted in sending Miss Griffin, a senior student, to Chicago to the Biennial Convention.

A tea was given in honor of the seniors at graduation, which proved so successful that the Association plans to continue this as a gift to each senior class.

For some time, the meetings have been held in the Nurses' Home, but at the last meeting plans were made to meet occasionally in individual homes. Several nurses who have children and are unable to leave them to attend meetings have requested the privilege of having meetings in their homes.

The Presbyterian Alumnae Association has had nine meetings.

The program for the October meeting, which was held in the school's newly completed classrooms, consisted of talks by members employed in various fields of nursing, each describing her type of work. Members of the Pre-Clinical class were invited as special guests.

In November the program was conducted by members who were veterans of World War II. They presented a skit "The Nurse's Home Life in a Typical Field Setup in Africa."

In December officers for the new year were elected .. A Christmas Bingo party followed.

The January program consisted of a report of Miss Gretta Palmer's article "What Happens when the Nurse Won't Take Care of the Sick" and of Miss Mary Roberts' reply, which was followed by a discussion.

In February the Association presented a series of skits depicting the growth of and development of Presbyterian Hospital during the past fifty years. The student body and some of the older doctors were invited guests and many older graduates were present.

The Association was hostess to the Pre-clinical Class, their families, and friends at a reception following the capping ceremony in March.

The Association held open house, honoring the graduating class, in April.

An interesting program was presented at the May meeting by the Junior Class entitled "A Typical Day in the O.R."

A homecoming picnic supper and baby show were held on the Nurses' Home campus in June, with the oldest living graduate, class of 1903, as a special guest.

The Association has bought an ad in the students' annual and contributed to the Red Cross Disaster Fund. It has decided to send one red rose to each member when she is ill. Cards, flowers, and telegrams have been sent on various other occasions to express sympathy and condolence.

SHELBY ALUMNAE ASSOCIATION
Ora Mae Willis, R.N., President

DUKE ALUMNAE ASSOCIATION
Mary C. Williams, R.N., President

The Duke University School of Nursing Alumnae Association, with an active membership of one hundred and fifty, has had eight monthly meetings.

The June meeting was the annual alumnae-senior entertainment, and a barbecue was given in honor of the graduating class. At this meeting, the officers for the coming year were announced, and the following senior awards were presented: The Alumnae Award, the Florence Nightingale Plaque was given to the senior who had shown outstanding qualities in leadership, scholarship and nursing skill. The Mosely Award of $25 (given by an alumnus of the school of nursing) was given to the graduating senior who had demonstrated the best bedside nursing care during her three years.

A benefit bridge was sponsored by the Alumnae, and $100 of the proceeds was presented to the Vespers Committee of the school of nursing toward a new spinet piano.

The Association cooperated with the General Alumnae of the University in the first Alumnae weekend since the war and also played a great part in the Loyalty Fund Drive. The Nurses' Alumnae ranked high in the contributions to this worthy cause.

Expenditures for the past year included over $85 for current publications of local and state papers and leading magazines for the Nurses' Home.

The Association has cooperated with The Good Health Association and North Carolina State Nurses' Association in student nurse recruitment. It has also cooperated in many university programs.

Our Endowment Fund now totals $1,500.

A news letter has been sent to each member during the year, in addition to many cards and personal letters.

Much credit for the accomplishments during the past year should be given to Miss Mildred Crawley, retiring president.

REX ALUMNAE ASSOCIATION
Mrs. Jeannette F. Danieley, R.N., President

The Rex Hospital Alumnae Association has held nine monthly meetings and two executive meetings with an average attendance of thirty. Three meetings were held in private homes. The Association has one hundred and eight members (seventy-four resident; thirty-four non-resident; three honorary members; two reinstated members; and twenty-seven new members). We have tried to make the meetings during the year a real social hour with the business at the beginning of each meeting. This has stimulated interest and more younger graduates have attended the meetings.

In October we had our homecoming, with an attendance of one hundred and forty-six members, which everyone enjoyed. The food was excellent, and we are grateful to the hospital administration for the marvelous dinner. In January a spelling bee was held. In March the Association was host to District Six, at which time the district contest to select a candidate for the state contest to crown "Miss North Carolina Student Nurse of 1948" was held. The Association entertained the graduating class of 1948 at a dance in the ballroom of the Nurses' Home, and the Rex Coat of Arms was presented to the class. In September Mrs. Marie B. Noell discussed "Structure Study of the National Nursing Organization." We are cooperating with District Six in supporting Nursing Progress Week and Linda Richards Day.

The Association donated $5 to the Mary Lewis Wyche Loan Fund.

All sick nurses were remembered with cards, telegrams of condolence, and flowers in case of death. Flowers were sent to an honorary member who died in January.
